TO WHOM IT MAY CONCERN.

I have been a customer of *Fingersafe* ever since its first conception, being one of the first schools to try out the system on our doors.

I have been delighted with the product, especially as some of our doors are quite difficult to fit, and also the prompt and courteous service I have always had.

The guards have been in place for ten years now and are still effective, assisting me in providing a safe environment for the staff and pupils of this school.

I would unreservedly recommend their use.

Yours faithfully,

Mrs. A.M.Meek. [Headmistress]
